

I valori di un'azienda 100% italiana

The values of a 100% Italian company

Dal 2003 Sedit è punto di riferimento nella produzione e nel commercio di tavoli, sedie e complementi d'arredo. Pietro Barollo, CEO dell'azienda, crede fermamente nei valori del Made in Italy e nella forza delle partnership con altre aziende del territorio: «Sedit è una realtà con sede, mani e cuore in Italia. Questo si traduce in una produzione tutta italiana in cui la passione per il nostro lavoro, il gusto per il bello, la tecnica consolidata e la sinergia con altre imprese concorrono per dare forma a prodotti personalizzati e di qualità».

Since 2003, Sedit has been setting the benchmark when it comes to manufacturing tables, chairs and other pieces of furniture. Pietro Barollo, CEO of the company, believes strongly in the value of "made in Italy" products and the power of partnerships with other local businesses: "Sedit has its hands, heart and headquarters all in Italy. This means we offer 100% Italian production. We put passion into what we do, we have a taste for aesthetics, and we have consolidated technical knowledge and synergies with other companies. This ensures we create high-quality, customised products."

Un'industria dall'anima artigianale

Teeniche e tecnologie permettono di realizzare prodotti in grandi quantità e di controllare step by step il processo produttivo. Le lavorazioni industriali di Sedit sono guidate e perfezionate da una grande cura artigianale, che si manifesta nell'attenzione alle singole fasi di produzione e nella rifinitura dei dettagli. Il Made in Italy è anche questo: un'industria che sa valorizzare i propri prodotti con un know-how artigiano.

An industry with craftsmanship at heart.

Technical skill and technology are the tools we use to manufacture high-quality products and to monitor our production process, step by step. Sedit's industrial processing procedures are guided and perfected by an important artisanal touch, which comes through in the attention to detail at each single stage of production and in the finishing details. This is part of what it means to be made in Italy: an industry that knows how to add value to its products, with artisanal skill.

La materia prende forma

Per Sedit saper plasmare la materia non è semplicemente un lavoro quotidiano, è un'arte vera e propria.

Una profonda conoscenza dei materiali e delle relative tecniche di lavorazione permettono di dare forma alla materia per realizzare progetti nuovi e idee innovative. Legno, vetro, pietre, metalli, ceramica, ecomalta, cuoio, pelle e tessuti: quando la singola matericità incontra le altre, nascono prodotti unici e personalizzati.

The material takes shape.

At Sedit, knowing how to mould materials is not just our day job, it is a true art form. We know our materials and processing techniques inside out, and this ensures we have the material to work with to create new projects and innovative ideas. Wood, glass, stone, metal, ceramic, ecomalta, hide, leather and fabric: when one single texture or material meets the others, this is when unique, customised products are born.

Tavoli sistemi di apertura

Tables, opening mechanisms

Un tavolo da pranzo attorno al quale ritrovarsi con la famiglia e gli amici può allungarsi per accogliere ancora più persone. Ad ogni modello corrisponde il suo sistema, o i suoi sistemi, di apertura per ampliare le dimensioni e, di conseguenza, anche la convivialità. Scegliere un tavolo allungabile Sedit significa unire funzionalità e stile, grazie a 4 meccanismi performanti e tanti abbinamenti di materiali.

A dining table to sit around with your family and friends can be extended to welcome more people. Each model has its own mechanism(s) for opening up and amplifying the space and, as a result, the hospitality and conviviality. Choosing a Sedit extendable table means pulling together purpose and style, thanks to 4 high-performance mechanisms and a wealth of materials to mix and match.

One system staffe estraibili con allunghe esterne

One system
pull-out brackets with external extensions

SINUA	p.118
POWER	p.178
CONCRETE	p.188

Due staffe per lato sono poste sotto il piano del tavolo e, all'occorrenza, escono con un movimento scorrevole. Le allunghe vengono appoggiate e agganciate sopra le guide ma, nel momento in cui non sono necessarie, vengono tolte per essere custodite in uno spazio a piacere, mentre le staffe rientrano. In pochi e semplici step, il tavolo aumenta di dimensioni e di stile.

Two brackets are positioned on each side under the table top and can be opened out via a sliding mechanism as required. The extension leaves are positioned on top of the runners and fastened in place. When they are no longer needed, they can be removed and stored in your chosen location, and the brackets fold away. Give the size and style of your table a boost in just a few simple steps.

Up system binario scorrevole e alzabile con allunghe

Up system
sliding, liftable track with extensions

TAVOLI DISPONIBILI CON UP SYSTEM
TABLES AVAILABLE WITH UP SYSTEM

WAVE	p.26
BUILDING	p.36
VELA	p.64
IKARUS	p.182

Due allunghe sono poste sotto il piano del tavolo, alle estremità di un binario scorrevole. Per allungare il tavolo è necessario far scorrere il binario verso l'esterno e alzarlo leggermente: in questo modo le allunghe escono e si posizionano a filo del piano principale. Un sistema molto pratico che permette di prolungare il tavolo senza rinunciare allo stile.

Two extension leaves are positioned under the table top at the ends of a sliding track. To extend the table, slide the track outwards and lift it slightly; this releases the extensions which are positioned flush to the main table top. This highly practical mechanism allows you to extend the table, without compromising on style.

Plus system apertura telescopica del piano

Plus system
telescopic top opening

TAVOLI DISPONIBILI CON PLUS SYSTEM
TABLES AVAILABLE WITH PLUS SYSTEM

VELA	p.64
ZOE	p.98

Il movimento ricorda quello dell'apertura di un cassetto: il piano del tavolo si apre lateralmente tramite un meccanismo scorrevole e al suo interno è riposta, agganciata e ripiegata "a libro" l'allunga. A questo punto, è sufficiente aprire anche l'allunga per ottenere un tavolo con più posti a sedere per i propri ospiti.

The movement resembles opening a drawer in that the table top pulls out sideways thanks to a sliding mechanism. The extension leaf is folded away and fastened on the inside. Simply open out the leaf to create more seats at the table for your guests.

Cross system apertura telescopica della struttura

**Cross system
telescopic frame opening**

EVOLUTION	p.152
BIO	p.158
TALLER	p.162
LOFT	p.192
MOVIDA	p.196

Con questa tipologia di apertura, l'intera struttura si apre lateralmente con un movimento scorrevole e all'interno del tavolo si trovano le allunghe per completare il piano. Una volta estratte e posizionate sopra le guide, le allunghe permettono di estendere il tavolo in più misure, a seconda di quanti piani aggiuntivi sono disponibili. Un sistema molto flessibile, che permette di scegliere di quanto allungare il tavolo.

With this type of opening mechanism, the full table frame opens out sideways in a sliding motion. The extensions leaves can be found inside, to complete the table top. Once extracted and positioned on top of the guides, the extension leaves can be used to extend the table to different sizes, depending on how many extension leaves are available. This flexible system allows you to choose how far you want to extend your table.

Origami

Sotto il piano del tavolo è nascosto un meccanismo scorrevole telescopico: nel momento in cui le guide vengono estratte, al loro interno sono visibili le doppie allunghe, ripiegate a metà. Entrambe le allunghe si aprono “a libro” e la superficie del tavolo aumenta per accogliere più ospiti.

A sliding, telescopic mechanism is hidden under the table top. When the runners are pulled out, the two extension leaves can be found folded in half on the inside. Both leaves open out like a book to increase the surface area of the table and accommodate more guests.

La struttura si apre lateralmente grazie a un meccanismo telescopico posizionato al centro del piano e non visibile. Una volta aperto il tavolo, all'interno delle guide sono riposte una serie di allunghe: è quindi possibile estendere il tavolo a piacere, a seconda della quantità di allunghe inserite.

The frame opens out sideways, thanks to a concealed telescopic mechanism in the middle of the table top. Once opened out, the table reveals a series of extension leaves positioned inside the runners. These can be used to extend the table as desired, according to how many leaves are inserted.

La particolare struttura in alluminio può essere personalizzata nelle dimensioni al centimetro sia in lunghezza, sia in larghezza. Un sistema flessibile nelle misure e versatile negli utilizzi, ideale per arredare uffici, spazi di condivisione e ambienti contract o per integrarsi a isole e penisole nelle cucine moderne.

The unusual aluminium frame can be personalised in size to the centimetre, both lengthways and widthways. This mechanism offers flexible size options and has versatile uses, ideal for furnishing offices, shared spaces and large turn-key project areas. This table also integrates well into islands and peninsulas in a modern kitchen.

Sedie tante forme e stili di comodità

Chairs

Lots of practical shapes and styles

In sala da pranzo o in cucina, le sedie completano la funzionalità di un tavolo e ne valorizzano lo stile. Con o senza imbottitura, con schienale alto o basso, con rivestimento in tessuto o in ecopelle, con struttura in legno o in metallo, morbide o strutturate, dalle linee moderne o retrò: ogni sedia ha precise caratteristiche che ne definiscono il carattere. Tutte uguali per dare uniformità all'ambiente oppure di colori diversi per creare abbinamenti personalizzati.

Whether in the dining room or the kitchen, these chairs complement your practical table and add style. Each and every chair has its own unique features that define its character: with or without padding, with a high or low backrest, with fabric or eco-leather upholstery, with a wooden or metal frame, with a soft or structured form, and with modern lines or a vintage feel. Choose to have them all the same, to create uniformity in your space, or opt for different colours to create personalised pairings.

A modern, minimalist chair with a vibrant red upholstered seat and backrest. The chair features a dark, possibly anthracite, metal frame with four thin, slightly tapered legs. It is positioned against a light gray, textured concrete wall that has several small, dark circular holes. The floor is a smooth, light gray surface that reflects the chair and the wall. The overall aesthetic is clean and industrial.

Sgabelli comodità all'altezza delle aspettative

Stools

Practical features that live up to expectations

Per progetti contract e anche domestici, gli sgabelli sono soluzioni pratiche, moderne e soprattutto comode. Con o senza schienale, fissi o regolabili in altezza, con struttura in legno o in metallo, dalle linee morbide o squadrate: tanti modelli di sgabelli che si adattano a tutte le tipologie di ambiente e utilizzo. Dal bar alla cucina di casa, gli sgabelli arredano lo spazio come le sedie, ma hanno il plus dell'altezza per banconi e piani snack.

For large-scale design projects, as well as your domestic space, stools provide a practical, modern and comfortable seating solution. There is a wealth of stool models on offer, with or without a backrest, with fixed or height-adjustable mechanisms, with wooden or metal frames, and with a soft or square design. Each adapts to a different type of space and usage. From a café to your kitchen, stools furnish the space in the same way a chair does, with the added height bonus, making them ideal for bar counters and breakfast bars.

Poltroncine piccoli e avvolgenti mondi di comodità

Armchairs

Cocoons of modern comfort

Perfette per creare angoli di lettura, per rendere confortevoli spazi di ingresso e sale d'attesa, per completare una postazione home office, ma anche attorno ad un tavolo per dare una forma più accogliente alla convivialità: le poltroncine sono avvolgenti e rassicuranti, belle dal punto di vista estetico e comode dal punto di vista pratico. Una soluzione alternativa o complementare alle sedie, molto di tendenza.

Armchairs are inviting and comforting, offering great aesthetics and providing practical seating. They are perfect for a reading corner, or to make an entrance or reception space comfortable. They can complete your home office or sit around a table to give it a more friendly feel. They provide an on-trend alternative or complementary solution to a standard chair.
